Elynn Martin-Gay believes "every" student can succeed and that is the motivating force behind her best-selling texts and acclaimed video program. With Martin-Gay you get 100% consistency in voice from text to video! "Prealgebra 5e "is appropriate for a 1-semester course in Prealgebra, and was written to help students effectively make the transition from arithmetic to algebra. To reach this goal, Martin-Gay introduces algebraic concepts early and repeats them as she treats traditional arithmetic topics, thus laying the groundwork for the next algebra course your students will take.

Assessing Adolescent Psychopathology: MMPI-A / MMPI-A-RF, Fourth Edition provides updated recommendations for researchers and clinicians concerning the MMPI-A, the most widely used objective personality test with adolescents, and also introduces the MMPI-A-Restructured Form (MMPI-A-RF), the newest form of the MMPI for use with adolescents. Further, this fourth edition includes comprehensive information on both MMPI forms for adolescents, including descriptions of the development, structure, and interpretive approaches to the MMPI-A and the MMPI-A-RF. This text provides extensive clinical case examples of the interpretation of both tests, including samples of computer based test package output, and identifies important areas of similarities and differences between these two important tests of adolescent psychopathology.

"Complex-event processing is simple in principle but hard to do well in practice. This guide presents the principles and motivations for those new to the subject. More importantly, it details the entire thought-landscape of a complete implementation, using TIBCO products as the background. Well worth the read for anyone who is thinking of implementing a complex-event solution. Those who have already implemented one should read it as well, both for another perspective and for a view of the capabilities of the TIBCO products." (Lloyd Fischer, Senior Software Architect, WellCare Health Plans "This complete guide drives you through the specifics of complex-event processing (CEP) design concepts. The book covers all the fundamental aspects and design phases relevant for any TIBCO CEP project implementation, from design through performance-tuning and deployment. I would highly recommend this book to any reader interested in CEP concepts, although a small amount of TIBCO technology knowledge will let you appreciate it more.!" (Antonio Bruno, Infrastructure Account Manager, UBS AG The architecture series from TIBCO® Press comprises a coordinated set of titles for software architects and developers, showing how to combine TIBCO components to design and build real-world solutions. Complex-event processing is required when multiple events occurring throughout an organization must be sensed, analyzed, prioritized, and acted on in real time. Architecting Complex-Event Processing Solutions with TIBCO® shows how to design and architect complex-event processing systems, addressing all their complexities and achieving maximum efficiency and effectiveness, while delivering superior business value. After reading this book, you will be able to identify opportunities for competitive differentiation through complex-event processing Describe differences between complex-event processing and traditional systems Understand relevant capabilities of the TIBCO BusinessEvents® product suite Select building-block design patterns for constructing complex-event processing solutions with TIBCO BusinessEvents Address architectural aspects of moving solutions into production Implement proven approaches to designing fault tolerance and high availability Architecting Complex-Event Processing Solutions with TIBCO® is intended for working architects, designers, and developers who want to apply TIBCO products in complex-event processing applications. It is also required reading for anyone seeking TIBCO Certified Architect status.

Offers an account of contemporary trends in education reform and public sector governance, focusing on the increasing role of business and philanthropy in education service delivery and education policy and the emergence of new forms of 'network' governance.

This first book in a new vocabulary series makes vocabulary fun and accessible by incorporating interactive exercises and high interest reading, with topics ranging from movies to books and from personalities to politics. The readings keep readers interested while showing how vocabulary is used in the context of a larger reading passage. An accompanying interactive CD-ROM features an audio component to aid in pronunciation and interactive exercises. Thematic readings open every chapter, making the material interesting and engaging. In addition, two of the chapters focus on word parts. For English majors and anyone interested in vocabulary.
